

# Follow the Forest Amphibian Crossing Data

## How to Use This Form

- Record the numbers of amphibian sitings in each column. Before going out, learn to identify the most common species in your area.
- Print out this form and send a picture of it to [info.followtheforest@gmail.com](mailto:info.followtheforest@gmail.com). Include a map with the crossing clearly marked.
- Always stay safe. Wear reflective clothing, bring a flashlight, stay alert to cars, and take extra precautions if you're with your kids.
- If you visit multiple crossings, fill out separate forms. Include names and contact info of volunteers, so we can be back in touch.
- Include details and descriptions in the notes sections.

Preparer's name(s): \_\_\_\_\_

Date: \_\_\_\_\_

Town: \_\_\_\_\_

Road Name : \_\_\_\_\_

Site: \_\_\_\_\_

Start Time: \_\_\_\_\_

End Time: \_\_\_\_\_

Temperature (F) : \_\_\_\_\_
